

ETHER TERMINAL LLC

ETHER OS // OFFICE OF SOVEREIGN PROTOCOL OPERATIONS

RESTRICTED // COMMERCIAL DIRECTIVE & SETTLEMENT DOSSIER

MEMORANDUM FOR: Contact: On Record

PURCHASE ORDER: P0-2026-ET-4581

FROM: Office of the Chief Protocol Architect, Ether Terminal LLC

DATE: September 27, 2026

SUBJECT: DIRECTIVE ON SOVEREIGN NODE PROVISIONING & WIRE SETTLEMENT

 RESTRICTED // DOSSIER PENDING MANDATORY RATIFICATION:

All starred entries (*) in the Procurement Suite must be completed before official wire routing coordinates, cryptographic Operator ID, and corporate wire clearance credentials can be unlocked.

I. PROVISIONING AUTHORIZATION & CREDENTIALS

Pursuant to the institutional procurement dossier received from [Procuring Enterprise Entity], the Office of Sovereign Protocol Operations has formally authenticated and minted the sovereign credentials for your node deployment.

OPERATOR ID:	[LOCKED – COMPLETE MANDATORY DOSSIER]
LICENSE KEY:	[LOCKED – COMPLETE MANDATORY DOSSIER]
DEPLOYMENT TIER:	Node Operator (Evaluation Pilot) – 30-Day Evaluation
SECTOR / SCALE:	Command Nodes (Enterprise Scale)
ENVIRONMENT:	Air-Gapped Sovereign Local Enclave (Zero Cloud Egress – \$0 CapEx)
STORAGE & ENCLAVE:	

~~Direct Air-Gapped Cloud Download (.DMG / Container Image Included)~~

TELEMETRY & INGESTION LAYER:

TORQ Sovereign Telematics Ingestion Layer (Air-Gapped LAN Diode Only – Included / +\$0.00 USD)

SETTLEMENT METHOD:

Direct Corporate Wire / ACH (Client Designated Commercial Bank)

TARGET TIMELINE:

Immediate (< 48 Hours Priority Queue)

II. TREASURY SPECIFICATIONS & VENDOR COMPLIANCE

Corporate treasury settlement is authorized via Direct Corporate Wire Transfer or Automated Clearing House (ACH). Remit specified settlement funds in accordance with the mandatory coordinates below:

BENEFICIARY: Ether Terminal LLC

VENDOR REGISTRATION & TAX ID:

NC SOS ID: 3300608 | EIN: 42-3015820 (Ether Terminal LLC Form W-9 Provided)

CORPORATE CONTACT & VERIFICATION:

Phone: (888) 861-9020 | Web: <https://ether-terminal.com>

RECEIVING BANK: Client Designated Commercial Bank

BANK ADDRESS: Commercial Depository Operations [RELEASED VIA W-9 TO AP]

BANK ROUTING (WIRE / ACH):

ACCOUNT NUMBER: (LOCKED UNTIL STARRED ENTRIES RATIFIED)

REQUIRED WIRE MEMO: [LOCKED – COMPLETE STARRED ENTRIES]

DEPLOYMENT ARCHITECTURE: 100% Digital Air-Gapped Software (\$0.00 Hardware CapEx)

TOTAL SETTLEMENT AMOUNT: \$9,500.00 USD

Institutional Vendor Onboarding: IRS Form W-9, Certificate of Good Standing, and Commercial Bank Verification Letters are issued directly via secure digital AP dispatch (contact@ether-terminal.com) | (888) 861-9020) or encrypted physical deployment media upon request.

III. DEPLOYMENT TIMELINE & CHAIN-OF-CUSTODY

Upon treasury confirmation of the wire settlement referencing memo [LOCKED], the cryptographic deployment desk will provision your designated digital software environment and

cryptographic license keys, initiating the live protocol handshake with your technical officers ([procurement@enterprise.internal]) within your requested schedule.

IV. OBJECTIVE TECHNICAL SLA & PERFORMANCE GUARANTEE

Ether Terminal LLC warrants and covenants that during the thirty (30) day Evaluation Period, the Sovereign Platform and evaluation software instance shall perform in strict conformance with three (3) objective, independently verifiable technical benchmarks:

SLA Benchmark	Objective Commercial Standard	Verification Protocol
SLA 1: Sub-5s Local Scoping	Automated collision damage valuation, optical triage, and FNOL repair estimate compiled in < 5.0 seconds per claim.	Local workstation execution timestamp audit.
SLA 2: Zero Cloud Data Egress	0.00 KB of claim files, customer PII, video frames, or biometric vectors transmitted to public internet or third-party servers.	Licensee firewall monitor & network packet capture.
SLA 3: Certified Open Exports	Automated claim output compiled in certified CIECA BMS (v2024.1) JSON/XML or heavy vehicle SAE J1939 CAN schemas.	Direct export validation into Mitchell, Guidewire, or CCC.

SLA Remedy & 100% Refund Covenant: In the event the Software fails to meet any of the three (3) objective standards above using Licensee sample claims data during the Evaluation Period, Provider shall have five (5) business days to deliver a software patch or resolution. If uncured, Licensee shall receive an immediate **100% refund of the Evaluation Deposit** upon verified cryptographic revocation and de-provisioning of the evaluation software license.

V. BIOMETRIC PRIVACY & LOCAL RAM ZEROIZATION ADDENDUM

 **Certified Compliance: Illinois BIPA (740 ILCS 14/), California CCPA/CPRA, and GLBA / HIPAA Safeguards**

1. Volatile RAM-Only Execution: All biometric processing—including facial liveness verification, ocular topology, and voice acoustic stress analysis—executes strictly within volatile local system memory (RAM). Provider maintains zero capability, infrastructure, or network channels to access, collect, or store biometric identifiers of Licensee personnel or claimants.

2. Zero Persistent Biometric Identifier Storage: At no point is any raw facial scan geometry, biometric voiceprint template, or neural acoustic stress vector written, saved, or serialized to persistent storage. All biometric identifier extraction operates exclusively in volatile RAM and is immediately zeroized upon session completion.

3. FIPS 140-3 Level 1 Zeroization: The microsecond an adjuster logs out, the 60-minute session timer expires, or the application process terminates, all memory allocations containing biometric vectors are actively overwritten with zeros (0x00) in compliance with FIPS 140-3 zeroization standards.

VI. INSTITUTIONAL ENTERPRISE COVENANTS & LEGAL SHIELDS

A. Licensee Data Sovereignty & Zero AI Training: Licensee retains sole, exclusive, and unencumbered ownership of all claim records, telemetry logs, acoustic feeds, and files processed during evaluation. Provider acquires zero intellectual property or license rights in Licensee data. **Zero Licensee data shall ever be used, aggregated, or processed to train, refine, or calibrate public or multi-tenant machine learning models.**

B. Adjuster Decision-Support Disclaimer: Ethan AI acoustic, optical, and sensor forensics indicators are diagnostic decision-support heuristics designed to assist credentialed claims personnel. Final claims adjudication, settlement valuation, fraud determinations, and coverage decisions remain the exclusive professional responsibility of Licensee.

C. Mutual Confidentiality (NDA): Each party agrees to protect the other's Confidential Information with at least reasonable care. Provider proprietary algorithms, compiled binaries, and cryptographic protocols, and Licensee claims data and operational practices, constitute protected Confidential Information.

D. 24-Hour Priority Engineering Support & SLA Conformance: Provider maintains dedicated technical engineering liaison support throughout the evaluation period. Deployments are backed by a 99.9% availability SLA.

E. TORQ Sovereign Telematics & Ingestion Layer: During the 30-day evaluation, telematics and CAN-bus telemetry are ingested and evaluated locally within the air-gapped environment via benchmark log replay, encrypted OBD-II/CAN batch streams, or direct synthetic event generation. Policyholder smartphone edge processing and white-label SDK deployment are scheduled for Phase 2 enterprise production rollout. Network coverage variations do not constitute software non-conformance.

F. Corporate Treasury Disbursement Window: The assigned Wire Memo Code, reservation slot, and floor concessions are held in binding reservation for ten (10) business days from dossier issuance to accommodate Licensee's standard Accounts Payable verification and disbursement cycle.

G. End-of-Pilot Data Sanitization: In the event Licensee does not convert to an annual production agreement at the conclusion of the 30-day evaluation, Licensee shall execute the on-device cryptographic zeroization utility in compliance with **NIST SP 800-88 Guidelines for Media Sanitization** on evaluation workstations to decommission the software instance.

H. Vendor Insurance & Limitation of Liability: Provider maintains Commercial General Liability (\$5M / \$10M aggregate), Technology Errors & Omissions, and Cyber Risk insurance. Standard ACORD 25 Certificates of Insurance (COI) are provided upon AP request. Except for gross negligence or willful misconduct, Provider's aggregate liability under this Directive is limited to total fees remitted hereunder.

I. Governing Law & Arbitration: This Directive shall be governed by the laws of the State of North Carolina, without regard to conflict of law principles. Any dispute shall be resolved by confidential commercial arbitration administered by the American Arbitration Association (AAA).

VII. PROPRIETARY PROTECTION, REVERSE-ENGINEERING BAN & COMPETITIVE USE COVENANT

A. Strict Reverse-Engineering, Decompilation & Disassembly Ban: Licensee covenants and agrees that it shall not, directly or indirectly through any employee, affiliate, agent, consultant, contractor, or third party: (i) decompile, disassemble, reverse engineer, decrypt, extract, inspect, or attempt to derive or reconstruct the source code, underlying algorithms, protocol structure, mathematical formulations, or execution mechanics of the Software, its compiled binaries (**.dylib, .so, .dll, .exe, .app**), its WebAssembly runtime engines, cryptographic lease tokens, or local models; (ii) modify, adapt, translate, enhance, create derivative works of, or build upon the Software or any part thereof; or (iii) bypass, circumvent, tamper with, defeat, analyze, or disable any security controls, licensing mechanisms, cryptographic lease enforcement counters (**LeaseShieldEngine**), memory zeroization routines, or integrity verifications embedded within the Software.

B. Competitive Benchmarking, Copycats & Derivative Work Ban: Licensee covenants and agrees that the Software, documentation, performance benchmarks, and architecture are provided under strict confidential evaluation. Licensee shall not, directly or indirectly: (i) use, evaluate, test, or access the Software or any proprietary output or methodology to develop, design, train, build, benchmark, market, or sell a competing product, software, service, or forensic platform; (ii) conduct,

~~publish, disclose, or disseminate comparative benchmark tests, speed audits, architectural analyses, or competitive intelligence regarding the Software to any third party without Provider's prior written consent; or (iii) copy, clone, emulate, replicate, or simulate the user interface, algorithmic workflow, actuarial damage estimation heuristics, or local enclaved execution architecture of the Software.~~

C. AI & Neural Model Distillation Ban: Licensee is expressly prohibited from capturing, logging, recording, or utilizing inputs, intermediate representations, acoustic forensic outputs, optical damage vectors, or settlement directives generated by the Software to train, fine-tune, distill, evaluate, or bootstrap any machine learning model, neural network, heuristic engine, or artificial intelligence system, whether proprietary or open-source.

D. Trade Secret & Architecture Confidentiality: All source code, object code, system architectures, mathematical models, cryptographic validation routines, zero-knowledge circuit parameters, and forensic heuristics embodied in the Software constitute valuable trade secrets and exclusive intellectual property of Ether Terminal LLC protected under the Defend Trade Secrets Act (18 U.S.C. § 1836), the Uniform Trade Secrets Act, and international treaty.

E. Immediate Injunctive Relief & Liquidated Damages: Licensee acknowledges and agrees that any violation or threatened breach of this Section VII will cause immediate, irreparable, and incalculable harm to Provider for which monetary damages alone would be inadequate. Consequently, Provider shall be entitled to seek and obtain immediate injunctive relief, specific performance, and temporary restraining orders from any court of competent jurisdiction without the requirement of posting a bond or proving actual financial loss, in addition to all other legal remedies, attorney's fees, and statutory damages available at law or in equity.
